

Nutrition Education Program

2017 Annual Report: Anderson County

Our Focus

The Nutrition Education Program works in all 120 counties to improve the lives of limited-resource Kentuckians through education and changes in behavior and in community. Through the Supplemental Nutrition Assistance Program Education (SNAP-Ed) and the Expanded Food and Nutrition Education Program (EFNEP), the University of Kentucky Cooperative Extension Service has agents and nutrition assistants across the state who are dedicated to improving lives in their communities.

Our Challenge

Poverty

In Kentucky, household median income is **\$46,659**, which is much lower than the U.S. median of **\$57,617**.¹ Kentucky has high rates of poverty and food insecurity when compared to the United States as a whole.¹

	Kentucky	U.S.
Total Poverty	18.5%	14.4%
Child Poverty	25%	19.8%
Food Insecurity	17.3%	13%
Very Low Food Secure	7.4%	5.2%

In 2014, an estimated **2,450** Anderson County residents lived in poverty, and **880** of them were children. This is a **25.7%** increase in total poverty and **32.3%** increase in child poverty since 2007.²

SNAP benefits

Participation in the SNAP program among those who are eligible for its benefits is higher in Kentucky than in the U.S. as a whole.¹

In 2015, **2,247** Anderson County residents received SNAP benefits, a **65.1%** increase since 2007.³

	Kentucky	U.S.
SNAP Participation	91%	83%

Obesity

Nearly half of all American adults experience one or more preventable, diet-related chronic conditions, such as high blood pressure, cardiovascular disease, type 2 diabetes, and obesity.⁴ Kentucky has a high prevalence of hypertension, diabetes, and obesity, ranking in the top 10 when compared to other states.⁵ A large body of evidence shows that healthy eating habits and regular physical activity can help people achieve and maintain good health and reduce the risk of chronic disease throughout life.⁴

In 2013, **5,535** Anderson County residents were considered obese, representing **34.6% (27.9%-41.5%)** of the county's population.⁶

Our Solution

Provide hands-on, nutrition education to limited-resource audiences, focusing on:

- Buying and preparing healthy foods
- Developing new meal planning and cooking skills
- Adopting new healthy lifestyle behaviors
- Managing SNAP resources

In 2017, 1,774 Anderson County residents with limited resources participated in nutrition education lessons.

Our Results

IN KENTUCKY

Lifestyle improvements

In 2017, **98%** of adult participants made a positive change in food group choices and **81%** showed improvement in one or more food safety practices. In addition, **71%** began to plan meals in advance more often and **73%** used the “Nutrition Facts” on food labels to make food choices more often. Youth participants also experienced behavior changes, with **85%** improving their ability to choose healthy foods.

Our Success

Cooking workshops for children and teens

After Cooperative Extension got a number of calls about programs tied to the new cooking curriculum, it decided to add workshops for children and teens. Two cooking day camps were planned, held and evaluated. One used the Cooking 101 curriculum; the other used the Cooking 301 curriculum. Youth could register for one or both workshops. Twenty youth participated. Participants learned basics such as kitchen safety, measuring and how to read a recipe. Based on post-program surveys, all of the youth plan to participate in future cooking workshops. Some 85% of youth reported this was the first time they had ever cooked; 95% reported they now felt comfortable cooking.
